

## Mathematics Workshop in Bareilly on Saturday, 8 September 2018

### A Brief Report

As part of our relationship building exercise, AUP recently conducted a successful one-day mathematics workshop at The Guru Group School, Bareilly. The objective was to arouse curiosity among young learners, to create love of mathematics and to show how to approach mathematical problems in a classroom environment. The workshop was taken by Ms Ishita Mukherjee, a mathematics teacher with an experience of over 25 years. She emphasized on the importance of using a variety of approaches and strategies when teaching and learning mathematics. It was an interactive session attended by more than 65 teachers who all enjoyed it very much.
